

TP 1

Salma Bellaou

25 September 2025

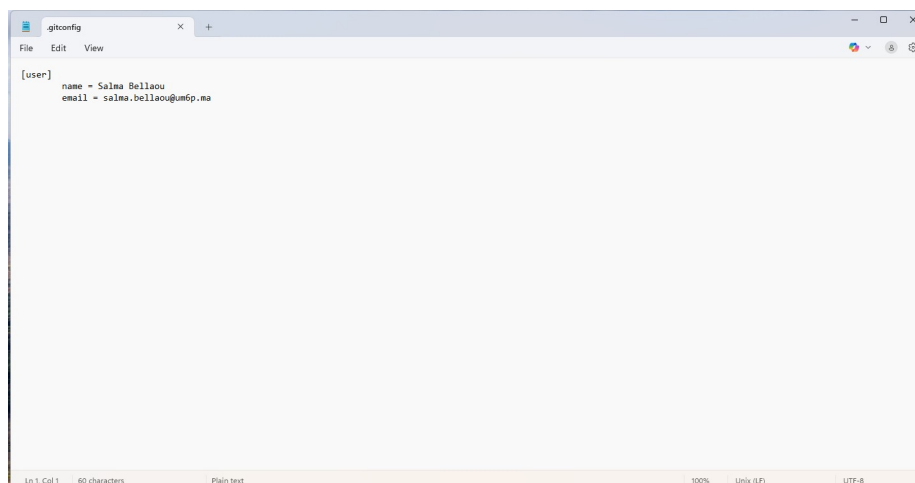

1 Introduction

In this project, we practiced the basics of Git by creating files, merging branches, and collaborating with classmates. We also learned how to push our work and pull updates, which helped us understand teamwork and problem-solving with Git.

```
Git CMD
C:\Users\Colcom16> git config --global user.name "Salma Bellaou"
C:\Users\Colcom16> git config --global user.email salma.bellaou@um6p.ma
C:\Users\Colcom16> .gitconfig
C:\Users\Colcom16> mkdir tpgit
C:\Users\Colcom16> cd tpgit
C:\Users\Colcom16\tpgit> git init
Initialized empty Git repository in C:/Users/Colcom16/tpgit/.git/
C:\Users\Colcom16\tpgit>
```

Figure 1: configuration of my git account, I created a folder to work on it

A screenshot of a text editor window showing a file named `.gitconfig`. The window has a menu bar with `File`, `Edit`, and `View`. The text inside the editor is as follows:

```
[user]
  name = Salma Bellaou
  email = salma.bellaou@unfp.ma
```

The status bar at the bottom indicates the cursor is at `Ln 1, Col 1`, the file contains `60 characters`, it is `Plain text`, the zoom is `100%`, the line ending is `Unix (LF)`, and the encoding is `UTF-8`.

Figure 2: A file was created with the information that I entered

```

C:\Users\Colcom16> .gitconfig
C:\Users\Colcom16> mkdir tpgit
C:\Users\Colcom16> cd tpgit
C:\Users\Colcom16\tpgit>git init
Initialized empty Git repository in C:/Users/Colcom16/tpgit/.git/
C:\Users\Colcom16\tpgit> echo mango
mango
C:\Users\Colcom16\tpgit> echo mango >> fruits.txt
C:\Users\Colcom16\tpgit> git status
On branch master

commit dd60aa5c60aa7052ea73a103bca3b953092ce4fa (HEAD -> master)
Author: Salma Bellaou <salma.bellaou@um6p.ma>
Date:   Wed Sep 24 11:48:25 2025 +0100

    Added banana to fruits

commit 05d0f4894c45848400cc2443d4fbabc63f6f5c15
Author: Salma Bellaou <salma.bellaou@um6p.ma>
Date:   Wed Sep 24 11:44:38 2025 +0100

    Added apple to the fruits

commit da5e6dfeda30bd9ccfad9cd17ab5ead68dc287a7
Author: Salma Bellaou <salma.bellaou@um6p.ma>
Date:   Wed Sep 24 11:40:39 2025 +0100

    Added pear to the fruits

commit c6011c7e08f17d30feef2f1d39a71b6be3fd985d
Author: Salma Bellaou <salma.bellaou@um6p.ma>
Date:   Wed Sep 24 11:35:39 2025 +0100

    Added grape to fruits

commit 80fc065133038113e39bc449377a5133b76e0ec9
Author: Salma Bellaou <salma.bellaou@um6p.ma>
Date:   Wed Sep 24 11:30:07 2025 +0100

    Added mango to fruits list

# Git Learning Project

## Description
This project is a TP designed to help students learn how to use Git, collaborate in teams, and solve common problems they may face while working together.

## Authors
- Salma Bellaou
- Asma Khamri

## Objectives
- Learn how to work with Git
- Develop problem-solving skills
- Practice teamwork and collaboration
```

Figure 29: documenting my project using markdown

The image is a screenshot of a GitHub repository's README page. At the top, there is a navigation bar with tabs for 'Preview' (which is selected), 'Code', and 'Blame'. To the right of these tabs are several icons: 'Raw', a copy icon, a download icon, an edit icon, and a menu icon. Below the navigation bar, the page content is organized into sections. The first section is titled 'Description' and contains the text: 'This project is a TP designed to help students learn how to use Git, collaborate in teams, and solve common problems they may face while working together.' The second section is titled 'Authors' and lists two names: 'Salma Bellaou' and 'Asma Khamri'. The third section is titled 'Objectives' and lists three bullet points: 'Learn how to work with Git', 'Develop problem-solving skills', and 'Practice teamwork and collaboration'.
